

MARDERC
Pty Ltd

**Fuel Drive Offs
Costing YOU Thousands
of \$\$\$\$?**

There is a Solution!

it's called...

**Drive Off
Sentinel**

www.marderc.com

0429 445 561

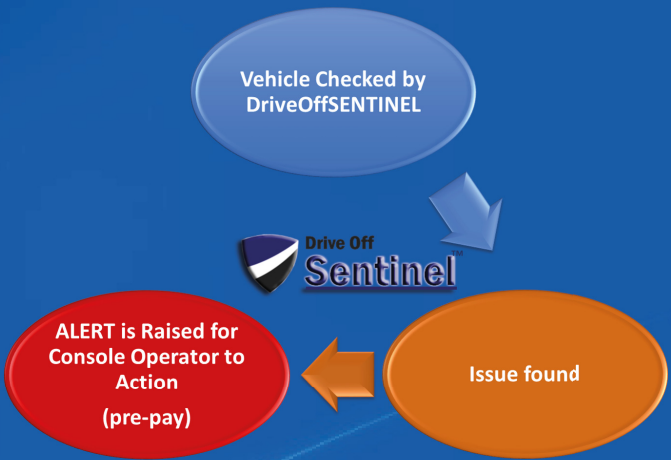

What the DriveOffSentinel subscription service does...

- Provides Console Operators with instant real-time Alerts
- Captures drive off data required by policing agencies
- Identifies offenders of multiple drive off events, across brands and geographic areas
- Identify offenders and vehicles by using multiple descriptors
- Produces evidence packets for Police
- Debt Collection from identified offenders
- Minimises Drive Off events re-occurring
- Change Drive Off person behaviour to...

“if you persist, you will get caught”

DriveOffSentinel forecourt processing:

- Identifies vehicles entering and checks their number plates
- When DriveOffSentinel finds a plate that has a prior incident, is stolen, or registration is non-compliant, it will provide the console operator with a real-time Alert
- An Alert is provided to the console operator if there is no plate or it is not readable
- All Alerts indicate at which pump the vehicle is located

Who is Marderc?

Marderc provides technology solutions to deal with “Drive Offs” and to “fight back” against Fuel Thieves through:

- **Monitoring**
- **Alerting**
- **Reporting**
- **Data Analysis**
